

Alex and Muny

Dear Birthmother,

We want to extend a warm "Hello" to you. Our names are Muny and Alex and we are 32 and 41 year old. We live in a comfortable home with ample room for a child; the surrounding neighborhood is beautiful and welcoming for children.

We both were born and raised in Eastern Europe and are both fluent in 5 languages. Muny is from the former Soviet Union and Alex is from former Yugoslavia. We met in 2003, dated, and fell in love. We were married in 2005 with great respect and admiration for each other.

Muny is one of three children. Muny's father is a Professor of Veterinary Medicine and her mother is an accountant. Muny had a wonderful childhood growing up in a close community where everyone knew each other and took care of each other. Muny is very loving, caring, nurturing and endlessly patient with children. Muny enjoys spending time with Alex, family and friends, knitting, cooking, playing tennis, going to the gym, going to museums, theater and volunteering in schools and shelters with children.

Alex is the oldest of three children. Alex's father is a retired computer engineer and his mother is an architect. Alex had a wonderful, yet complicated childhood. When he was 4 years old, Alex was in a terrible car accident with his mother, uncle and grandmother. The car caught on fire and a passerby pulled all but his uncle to safety. Alex was badly burned and required 36 surgeries over the span of many years. Alex enjoys the theater, hiking, movies, museums, and travel. He loves spending time with Muny, family and friends. Alex is a very caring, intelligent, funny and sweet person.

We know that this is a special gift that you have to give, and wish only the very best for you. We thank you for the time you have taken to look at our profile.

With warmest regards,

Muny and Alex
